City of Snoqualmie
Department of Emergency Management
News Release

For immediate release: October 26, 2011

Did You Get the Call from REVERSE 911?

Snoqualmie, WA – The City of Snoqualmie Emergency Management Department tested its REVERSE 911® system between October 18 and October 21, 2011.

If you have a home or business phone line in Snoqualmie and/or cell phone(s) registered in the database, you likely received a call last week. Call success rates in previous years have been very high.

If you did not receive a call, please register or update your phone number in Snoqualmie's REVERSE 911 database system in one of two ways:

- Go to the City of Snoqualmie website at www.cityofsnoqualmie.org and click "REVERSE 911: Sign Up!" in the box titled "Where do I find…". You may also email the EOC with this information to EOC@ci.snoqualmie.wa.us.

- If you do not have computer access, please call the City of Snoqualmie Emergency Operations Center at 425-888-5911. Callers should leave contact information including name, phone number, and property address.

The REVERSE 911 system allows residents to have multiple phone numbers included in the database. For example, you may want to have your home phone, your cell phone, and another family member's cell phone included so that you receive the emergency notification anywhere you are.

The Snoqualmie REVERSE 911 system is separate from King County and other cities' REVERES 911 systems and separate from the Snoqualmie Valley School District call-out system.

The phone number database the city uses is exclusive to Snoqualmie. All phone numbers are confidential and are used only during emergency situations by the City of Snoqualmie Emergency Management Department or by King County 911 emergency dispatch.

A fact sheet about Snoqualmie's REVERSE 911 system is available on the city website.
