News Release

For immediate release: April 17, 2012

New Garbage, Recycling and Composting for Snoqualmie

Waste Management Starts Service June 4

Snoqualmie, WA – Waste Management (WM) will be the new service provider for garbage, recycling and composting in Snoqualmie as of June 4, 2012.

Comprehensive informational materials will be mailed to residents and businesses with details about the following services.

For residents in single-family homes, WM will provide free all-in-one recycling and compost collection (food scraps and yard debris) included with garbage service. There will be other services offered and all collection containers will be provided by WM.

For businesses and multi-family properties, garbage service will include free all-in-one recycling and low-cost compost collection options, as well as free recycling consultations, site visits and waste assessments.

For more information about WM services, please watch your mailbox. You may also visit www.wmnorthwest.com/snoqualmie or call 1-800-592-9995.

Community BBQs!

WM is highly focused on proactive waste reduction and diversion through public outreach and education, incentive campaigns, and community events.

There will be two free community barbecues hosted by WM for local residents and businesses to learn more about the new services along with activities for kids and “Touch-a-Truck”!

May 12, 11am-2pm
Snoqualmie Community Park
35016 SE Ridge Street

May 19, 11am-2pm
Railroad Park
7971 Railroad Ave SE

RSVP
Please let us know if you'll be at one barbecue or the other.

About Waste Management
Waste Management is the leading provider of comprehensive recycling and environmental services in the Pacific Northwest and North America. We provide innovative sustainability solutions for residential, commercial, industrial, and municipal customers, from curbside collection with green-certified trucks for clean air to waste reduction programs that turn food scraps into compost for healthy gardens. The company uses waste that cannot be recycled to generate renewable energy, powering 7,500 homes in the Pacific Northwest. For more information, go to www.ThinkGREEN.com or www.wmnorthwest.com.
